Vom Wollmans Alexa Corvinus Haus (Alexa)

Alexa is our foundation female and she is everything a good female should be. She is reserved and aloof with strangers, but obedient and loving with her family and those she knows. She is a wonderful mother who produced large, healthy litters. She is sired by European Import Ch Tingo Flash Rouse and has more of the German Rottweiler look. She is larger at 90 lbs, with a wonderful topline, good bone, great angulation, tight feet, feminine head, dark eyes and black mouth pigment with correct scissor bite. She is great with kids and absolutely has the Rottweiler "clownish" attitude! She is a medium drive female who has extreme ball drive but also has a wonderful "off switch". She is my constant shadow and truly one of the nicest dogs I've owned. We look forward to seeing the accomplishments of her offspring!
